A man wearing a tactical helmet and goggles is holding a CZ handgun. The background is a dark, textured wall. The handgun is a semi-automatic pistol with a black frame and a silver slide. The slide has "MADE IN CZECH REPUBLIC, CZ" engraved on it. The man is looking directly at the camera with a serious expression.

"THE MOMENT YOU HOLD A CZ GUN IN YOUR HAND YOU EXPERIENCE AN INTUITIVE, FAMILIAR CONNECTION. A CONNECTION THAT SEEMS SMOOTH AND WELL KNOWN, LIKE MEETING AN OLD FRIEND. A CONNECTION THAT GIVES YOU ASSURANCE, CALMNESS AND A STEADY HAND TO SUCCESSFULLY PERFORM IN ANY SITUATION.

THIS CONNECTION AND THE DESIGN OF OUR GUNS ALLOWS THEM TO FIT WITH EVERY TASK AND MISSION. BE IT SPORT SHOOTING, HUNTING, MILITARY SERVICE OR LAW ENFORCEMENT, OUR FIREARMS ARE DEVELOPED TO HELP YOU SUCCEED.

THAT IS WHAT YOU GET FROM CZ. A GUN WITH INTUITIVE AND NATURAL HANDLING PRECISELY FIT FOR A GIVEN PURPOSE."

Dear Customers, Business Partners, and Supporters of the CZ brand,

Welcome to our product catalog - a world of innovation, precision design, and professional workmanship. **Ceska zbrojovka** is one of the main pillars of the international **Colt CZ Group**, the world's leading manufacturer of small arms, ammunition, ballistic protection, and other accessories. CZ branded products have been designed for the armed forces, self-defense, sport shooting, hunting, and other commercial applications.

The strength of the brand lies in the shared know-how, synergy, and values that enable us to offer users a top range of products that are characterized by high reliability, outstanding performance, and advanced ergonomics. We have developed a number of new, innovative products for the upcoming season that include the **CZ SHADOW 2 TARGET, CZ P-09 NOCTURNE, CZ 600 PLUS ERGO DRIVEN HUNT**, and others.

I wish you all the best in the choice of your new CZ firearm, and if you are a new customer, we are honored to welcome you to the ever-expanding group of CZ supporters!

Jan Zajic
CEO and Chairman of the Board of Directors
Ceska zbrojovka

LIMITED EDITIONS

CZ is proud of the tradition and exceptional quality it has been bringing to market for decades. For important anniversaries, events, or milestones, we create limited editions of our firearms that merge precise, modern technology with the masterful craftsmanship of our engravers.

Each piece is a unique work of art that bears the stamp of impeccable design, functionality, and the love of detail. These unique firearms are not only a testament to the CZ tradition, but also a symbol that represents the union of history and innovation.

For true collectors and connoisseurs of exceptional firearms, we offer the opportunity

to acquire these limited editions through auctions. This opportunity is not only the chance to become the owner of an exclusive masterpiece, but also to support the tradition and art that CZ represents. Our limited editions are more than just firearms - they are a celebration of the seamless blending of technology, craftsmanship, and Czech artistry.

**THE COMBINATION
OF TRADITION,
QUALITY AND ART**

BARREL WARRANTY

High precision, impressive durability, and a long service life. These are just a few of the many advantages that come with cold forged barrels. Cold hammer forging is a very complex and demanding process that is not easy to master. Many manufacturers are replacing it with simpler and cheaper methods, such as extrusion or broaching. However, the resulting product lacks some of the key characteristics found in cold hammer forged barrels. For many years, CZ has only offered cold hammer forged barrels with its firearms. As a result, this key component of every gun is ready for even the most demanding use. And because we have full confidence in our barrels, we are providing a lifetime barrel warranty for selected products. But first, let's take a closer look at how cold hammer forging works.

HOW DO WE MAKE OUR BARRELS?

The cold forging process involves a mandrel (a carbide rod with a mirror image of the rifling profile) being inserted into a polished hole in the barrel blank. The barrel is then placed in a "forging machine", a very precise machine that hammers the entire length of the blank using four specially designed and angled hammers made of sintered carbide or hardened steel. As a result of repeated blows by the hammer, the chamber, bore, and barrel rifling are formed around the mandrel with high dimensional precision and extremely tight tolerances. The hammers are also used to shape and extend the barrel to its final length.

ACTIVATE YOUR LIFETIME WARRANTY TODAY!

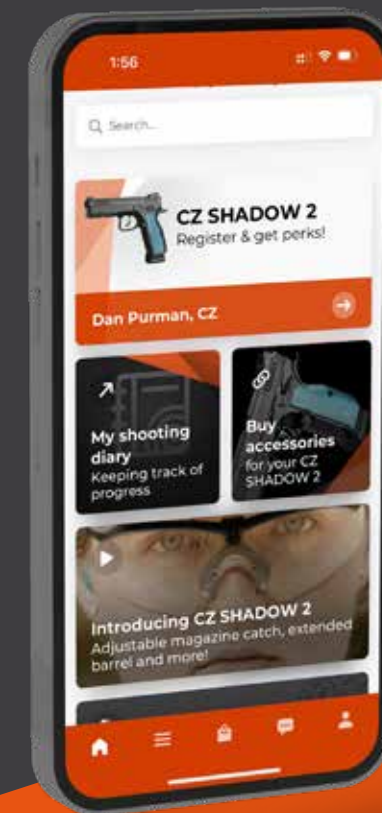

And if the benefits of cold hammer forged barrels were not enough, CZ introduced a lifetime warranty in 2024 for the barrels of all firearms manufactured from January 1, 2019 onwards. The warranty not only covers any manufacturing defects, but also the loss of CZ barrel accuracy throughout their service life. If your barrel exhibits manufacturing defects or a reduction in accuracy, it will be repaired or replaced free of charge. In the event that repair or replacement is not possible, you will receive a purchase voucher in the amount of the barrel's suggested retail price.

Activating the warranty is easy, just sign up for the CZ customer club via **QR code** or go to **<https://club.czguns.com/>**.

But that's not all! In the customer club, you can also create your own online shooting diary, keep up with the latest information from the world of CZ, and download the manual for your gun. You can even use it to contact our customer support.

We look forward to welcoming you to the club!

PISTOLS

CZ leads the world with a comprehensive line of advanced pistols that sees continuous innovation and expansion of models. We have an ideal firearm for everyone. All categories are covered, from sub-compacts to full-size models and sport specials. Pistols within the different series are made from both traditional and modern cutting edge materials with a selection of hammer-fired and striker-fired models. Keeping with the latest trends, selected models come ready for the installation of a suppressor and/or a red dot sight.

THE MOST POPULAR FIREARMS FOR COMPETING IN THE IPSC/USPSA PRODUCTION DIVISION

The CZ SHADOW 2 series is a family of high performance, large-capacity steel pistols for today's dynamic sport shooting disciplines. Models within this series allow good shooters to perform extremely well and the best shooters to win the most prestigious IPSC competitions.

CZ SHADOW 2
SERIES

ERIC GRAUFFEL

*Nine-time IPSC World Champion,
CZ Shooting Team,
user of CZ SHADOW 2 ORANGE pistols*

MAIN FEATURES OF THE
CZ SHADOW 2
SERIES

Ergonomic, deep-seated grip for improved control during shooting

Height and side-to-side adjustable rear sight for easy aiming

Adjustable magazine release button for maximum reloading speeds

1mm fiber optic front sight ensures high visibility and speeds up precise aiming

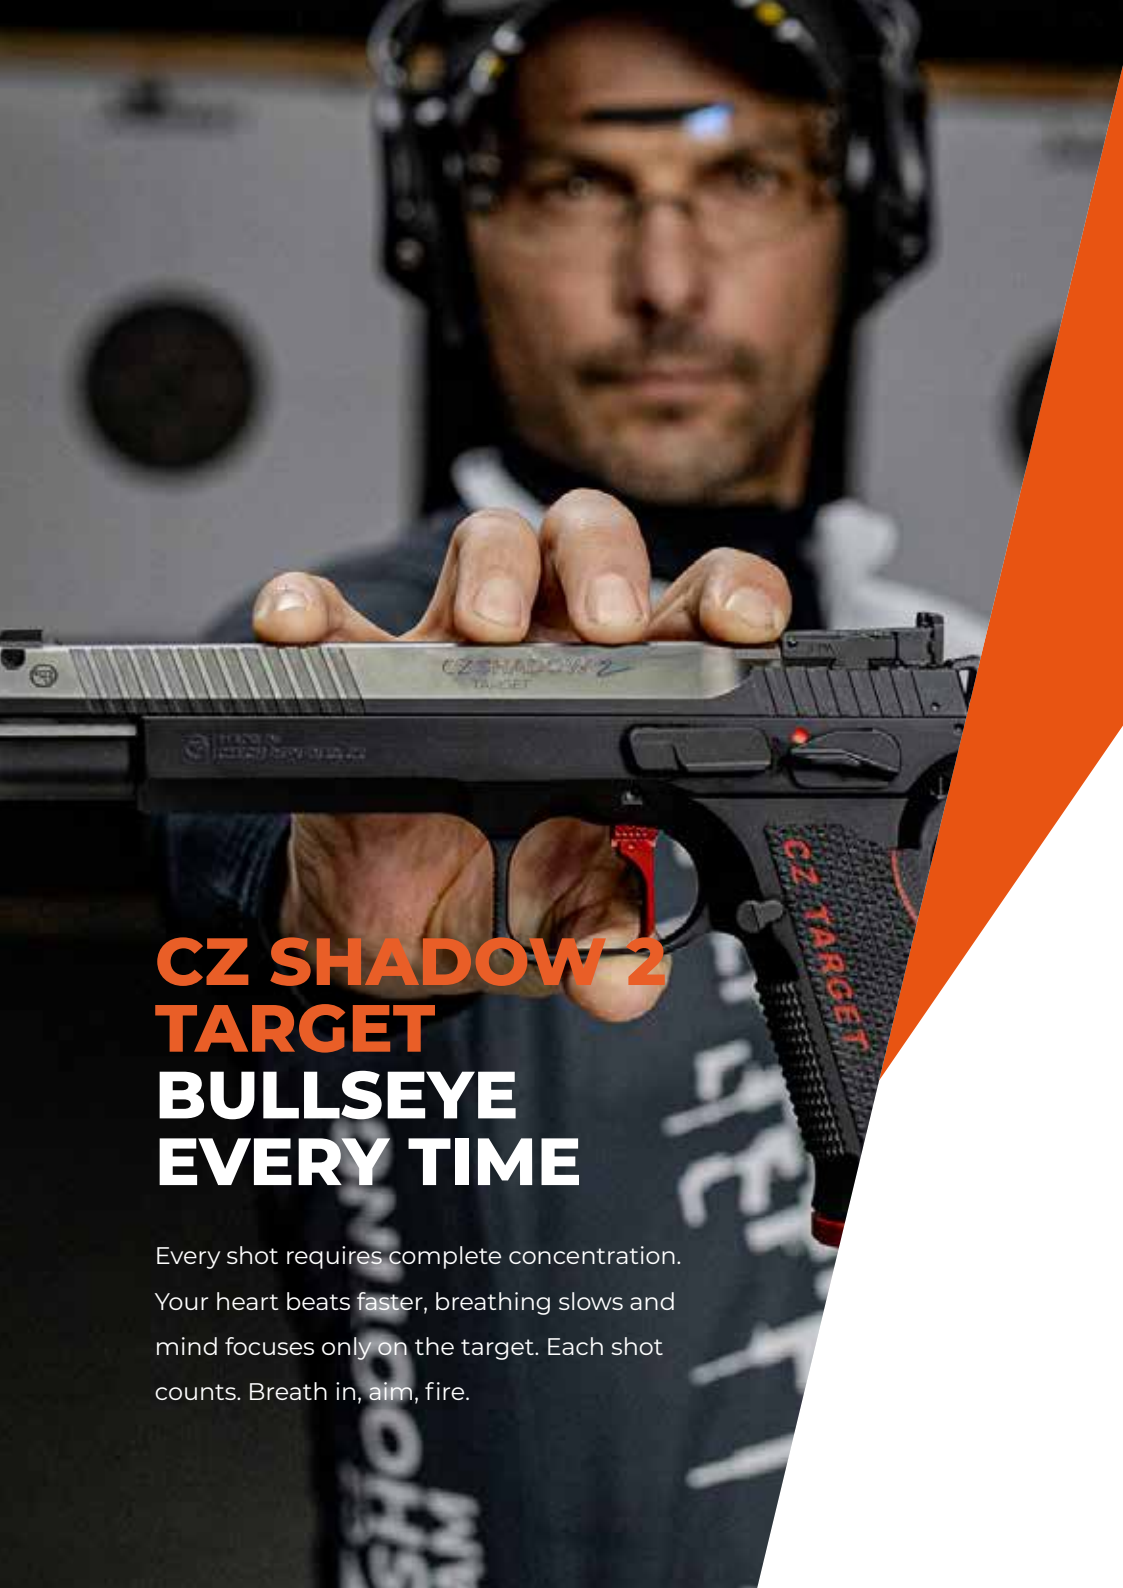

120 mm cold hammer forged barrel

Extended left safety button also serves as thumb rest (CZ SHADOW 2 SA and CZ SHADOW 2 ORANGE)

Smooth trigger pull and shortened reset

CZ SHADOW 2 TARGET BULLSEYE EVERY TIME

Every shot requires complete concentration. Your heart beats faster, breathing slows and mind focuses only on the target. Each shot counts. Breath in, aim, fire.

THE FIREARM OF WINNERS

The CZ SHADOW 2 is a true legend. It has several IPSC World Championship titles and many international championship medals under its belt, along with tens of thousands of satisfied shooters who all benefit from its timeless and perfectly balanced design. The combination of speed, accuracy, and shooting comfort allows sport shooters to achieve top results. In fact, it's difficult to find a worthy rival when it comes to competing in dynamic disciplines. And now, CZ introduces a special model for target shooting enthusiasts. Bullseye collectors that can rely on the same qualities as their IPSC counterparts.

CZ SHADOW 2 TARGET

The philosophy of the CZ SHADOW 2 TARGET is based on complete customization to each shooter's needs. The high level of adjustability available to the user is key. This goes hand in hand with an emphasis on tight tolerances that result in absolute accuracy. We firmly believe that we have succeeded in designing a gun that satisfies the most demanding criteria. Judge for yourself.

Polished barrel in two lengths

If any component of a gun could be

considered absolutely crucial, it's definitely the barrel. Cold hammer forged barrels have been a mainstay in the CZ portfolio for many decades. During that time, we have fine-tuned the technology in their production. As a result, you can full rely on the high-quality barrel in the new CZ SHADOW 2 TARGET pistol, which comes with a lifetime barrel warranty against wear and manufacturing defects.

Five and six-inch polished barrels are ideal lengths for target shooting. At first glance, the precise, sharp-edged muzzle that's protected against damage by a crown is sure to catch your eye.

All key components, such as the barrel, slide and frame, are hand-fitted, which is a matter of course with all Orange flagship models - the guns of world champions. The CZ SHADOW 2 TARGET will therefore meet the most demanding requirements and is ready to compete straight "out of the box". And win!

Redesigned ergonomics

The slide on the CZ SHADOW 2 TARGET has been noticeably lengthened, especially in the 6-inch version, which has led to a longer sight radius. This is absolutely crucial for target shooting.

The cocking serrations on the front and rear of the slide have also undergone a change. They are now longer and deeper. A slightly less noticeable, but more significant, change is the modified shape of the trigger guard, which features an enlarged undercut. As a result, the grip is slightly higher and more comfortable.

The attractive look and grip of the CZ SHADOW 2 TARGET is supported by ergonomic grip panels, which feature sophisticated texturing that matches the roughened areas on the front and rear of the grip. The most striking change to the frame, however, is probably the trigger. The well-known adjustability of the take-up and over-travel found in existing CZ SHADOW 2 models is, of course, retained in the CZ SHADOW 2 TARGET. However, it is now possible to adjust trigger pull between 6-17 N, so it can be fine-tuned to the shooter and various shooting disciplines.

Another new feature is the trigger shoe, which fully adjusts to the shooter's hand. Thanks to its ingenious design, the trigger shoe can be quickly and easily adjusted to fit with the reach of any hand. Simply choose one of the 5 positions, adjust the trigger, and you're done!

The design of the controls has been optimized for target shooting. Even the front part of the frame hasn't escaped change, as the mounting rail for attaching accessories has been replaced by an interface for attaching a frame weight, which helps reduce muzzle rise. This is especially important in disciplines where speed is crucial, in addition to accuracy. With the CZ SHADOW 2 TARGET, you will also reign supreme in shooting speed.

Adjustable sights

For accurate target shooting, it is absolutely crucial to have the right sights. The fully adjustable target rear sight, from the renowned manufacturer LPA, is adjustable in both the horizontal and vertical axes. Combined with a target front sight that comes in two different widths, shooters can fine-tune the sights to their exact liking.

Ready to dominate! Are you?

The CZ SHADOW 2 TARGET continues in CZ's tradition of creating firearms for success in dynamic shooting. You will arrive at every competition equipped with a pistol that shares DNA with champions. The CZ SHADOW 2 TARGET is ready to dominate! Are you?

NEW

CZ SHADOW 2 TARGET 6"

The philosophy of the CZ Shadow 2 Target is based on complete customization to each shooter's needs. The high level of adjustability available to the user is key. This goes hand in hand with an emphasis on tight tolerances resulting in absolute accuracy. Introducing the new features that will put a new trophy on your shelf. Really!

CZ SHADOW 2 ORANGE OR

An advanced, innovative sport pistol design that elevates your shooting experience and results in competitions to the highest level. The superb design base of this model has been further improved by precise gunsmithing modifications and the use of top-quality sport shooting components. A new feature is an extremely low and highly durable interface for mounting today's compact red dot sights.

ERIC GRAUFFEL

used the **CZ SHADOW 2** to win multiple titles in the Production division:

**WORLD CHAMPIONSHIP TITLE AT THE 2022
IPSC HANDGUN WORLD SHOOT
IN PATTAYA, THAILAND**

**EUROPEAN CHAMPIONSHIP TITLE AT THE 2023
EUROPEAN HANDGUN CHAMPIONSHIP
IN CORINTH, GREECE**

CZ SHADOW 2 OR

The CZ SHADOW 2 pistol is extremely fast, yet at some shooting stages, it can be even faster. How is that possible? By using today's compact red dot sights. The OR (Optics-Ready) model allows for their easy, exceptionally low and secure attachment.

CZ 75 B

Introduced in 1975, the CZ 75 stands as the cornerstone model within a diverse family that encompasses compacts, decockers, and competition pistols. The CZ 75 B, a global favorite, has a steel frame, 3-dot sights, and a 16+1 9mm capacity. The 'B' designation denotes the firing pin block safety, earning the reputation of being one of the most imitated handgun designs.

CZ 75 COMPACT

The CZ 75 Compact features a 4" barrel and a more compact design of the fullsize CZ 75, ensuring discreet concealability. While maintaining the sturdy steel frame, it weighs 2.4 oz less than its full-size brethren. The CZ 75 DA/SA, coupled with a manual safety lever, offers versatile carry options for users seeking ultimate reliability.

CZ 75 SP-01

CZ's inaugural full-size DA/SA handgun, The CZ 75 SP-01 features enhanced manufacturing and ergonomics derived from the NATO-approved CZ 75 Compact P-01. It incorporates an integral accessory rail, rubber grip panels, and a corrosion-resistant poly-coat finish. Tailored for military and law enforcement applications, it delivers outstanding accuracy, diminished recoil, and has gained popularity in the field.

CZ P-10 F OR 45 AUTO

The CZ P-10 F in the iconic 45 Auto, delivering the classic, hard-hitting power you know and trust, is now available in the OR version. Designed for those who demand performance and precision, this full-size pistol features a red dot cut, allowing you to mount your favorite optic. Combining the legendary stopping power of 45 Auto with the modern advantage of a red dot sight, the P-10 F sets a new standard for accuracy, speed, and versatility. This is the 45 Auto you love, evolved for today's shooter.

Red dot sight is not included in the package.

Red dot sight is not included in the package.

Red dot sight is not included in the package.

CZ P-10 F OR SR

The CZ P-10 F OR SR (Optics-Ready-Suppressor-Ready) features both an innovative CZ interface for mounting a red dot sight and extended barrel with 1/2" × 28 UNEF – 3A threads for mounting a suppressor. This model allows for more flexible use and offers a higher level of shooting comfort.

CZ P-10 F OR

The CZ P-10 F OR (Optics-Ready) has been designed for the increasingly popular option of mounting a red dot sight quickly and easily. The innovative CZ mounting interface is known for its robustness, strength, durability, low installation height and easy aiming with the red dot sight at short to long distances. This model also comes with high (cowitness) iron sights in case optics are damaged or fail.

CZ P-10 F

The P-10 F sets a new standard in striker-fired pistols with its impressive 19+1 capacity (expandable to 21+1). A longer slide and barrel provides enhanced accuracy and reduced recoil, while a convertible magazine release allows for left-handed operation. The P-10 F reflects CZ's commitment to ergonomic excellence and reliable performance in the striker-fired category.

NEW

CZ P-10 C OR FDE

The CZ P-10 C OR is now available in the highly sought-after FDE (Flat Dark Earth) color, combining tactical style with top-tier performance. This optics-ready pistol maintains the superior ergonomics, reliability, and precision the P-10 series is known for, now enhanced with a rugged and versatile finish perfect for any environment. Elevate your shooting experience with a firearm that's as bold in appearance as it is in capability!

Red dot sight is not included in the package.

Red dot sight is not included in the package.

CZ P-10 C OR

The OR (Optics-Ready) model comes with a modified slide for easy attachment of a red dot sight. This innovative solution from CZ is characterized by its strong and durable assembly, low mounting height, easy aiming with a red dot sight (even at long distances), and the option to use iron sights in the event of the optics failing.

CZ P-10 C

Due to its compact dimensions, innovative design and large firing capacity, this highly advanced, striker-fired pistol is suitable for concealed carry.

Red dot sight is not included in the package.

CZ P-10 C OR SR

The CZ P-10 C OR SR (Optics-Ready-Suppressor-Ready) features both a slide with an innovative interface for mounting a red dot sight and an extended barrel with 1/2" x 28 UNEF – 3A threads for mounting a suppressor. This model allows for quicker target acquisition and provides a higher level of shooting comfort.

CZ P-10 S OR

The industry-leading CZ P-10 series is available in a comprehensive range of sizes, from the subcompact CZ P-10 S and the compact CZ P-10 C, to the full-size CZ P-10 F.

CZ P-10 S

The P-10 S, part of the sub-compact lineup in the P-10 series, provides a comfortable 12+1 capacity in 9mm for everyday carry. It boasts a crisp trigger, superior ergonomics, and rugged reliability. Notably, the swappable magazine release enhances user experience, eliminating stiffness and ensuring left-hand friendly operation with a quick swap.

Red dot sight is not included in the package.

THIRD GENERATION OF THE SUCCESSFUL POLYMER PISTOL SERIES WITH THE OMEGA SA/DA TRIGGER MECHANISM

The new CZ P-09 NOCTURNE F (Full-size) and C (Compact) models not only retain all key features of the previous CZ P-07/09 generation, but in some ways takes them even further. It comes with improved ergonomics, the ability to mount a red dot sight without a plate, and controls that further expand the features found in the CZ P-09 series.

CZ P-09
NOCTURNE
SERIES

MAIN FEATURES OF THE
CZ P-09 NOCTURNE
SERIES

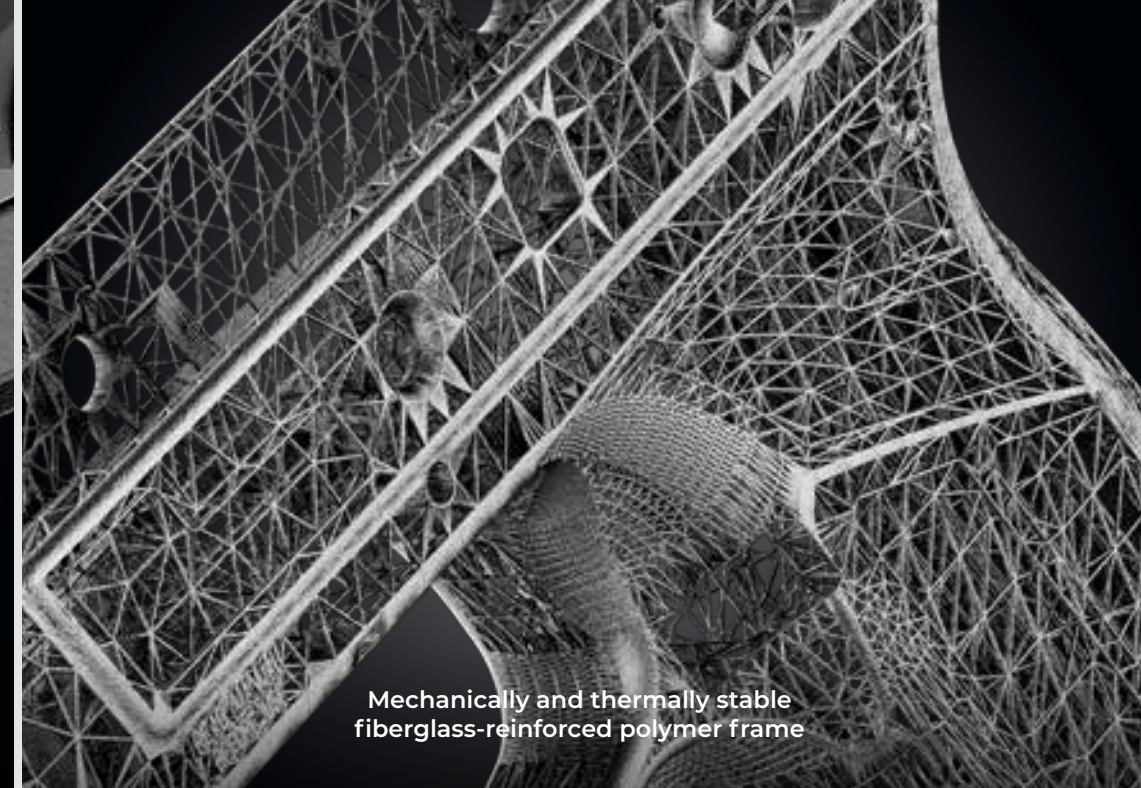

New Optics-Ready interface compatible
with Shield RMS and Holosun K footprints

Enhanced front cocking serrations

Extremely durable nitride finish on slide
and barrel - BOBOX

Mechanically and thermally stable
fiberglass-reinforced polymer frame

Interchangeable, ambidextrous safety
levers, manual safety to decocker

Omega SA/DA trigger mechanism

Three sizes of interchangeable
backstraps to modify grip

CZ P-09 NOCTURNE INNOVATION WITHOUT COMPROMISE

Synergy between shooters and their guns is crucial. To achieve this goal, a firearm must provide maximum shooting comfort. When developing new products, CZ draws on its decades of experience to make a firearm as reliable, accurate, durable and user-friendly as possible.

Although most shooters mainly require striker-fired pistols, many still prefer a double-action trigger and hammer. CZ responded to these demands by coming with a hammer-fired pistol with a lightweight and durable polymer frame.

The release of the CZ P-07 sixteen years ago, the so-called DUTY that was based on the iconic CZ 75 pistol, was followed by a second generation in 2013. The full-size CZ P-09 was released that same year and became a bestseller.

Since that time, CZ has remained a leader in the industry and consistently responded to evolving demands from customers. Case in point is the introduction of the upgraded version of the CZ P-09 – the CZ P-09 NOCTURNE!

MODIFICATIONS WITHOUT LIMITS

A frequent request from CZ P-07 and CZ P-09 users was the possibility of mounting a red dot sight. We answered their call with the new CZ P-09 NOCTURNE. Unlike CZ P-10 OR and CZ SHADOW 2 OR pistols, red dot sights with the Shield RMS mounting interface can be mounted directly on the gun. Optics therefore have a lower profile, while maintaining co-witness.

The fixed sights feature luminescent dots for more intuitive shooting. A tritium sight version will be available for selected markets. After all, the NOCTURNE should be able to see at night.

If you shoot without a red dot sight, the rear sight has been designed for emergency cocking against a suitable surface. Traditional MIL-STD-1913 rails allow you to mount a tactical flashlight, laser sight or other accessories.

EVERYTHING IS GEARED FOR HIGH COMFORT

Advanced ergonomics are critical for shooting accurately. We have therefore combined the optimum grip angle with a new texturing for a firm and secure grip in all conditions. This texturing has also been extended to the area

between the trigger guard and beaver tail, in front of the slide catch/release lever on both sides of the frame, and on the magazine base. Further fine-tuning of the grip is possible with three sizes of interchangeable backstraps. Controls have also changed with a new shape of the slide catch/release lever, manual safety, and decocker for more intuitive and confident operation. A further change is enhanced cocking serrations added to the front of the slide for a more secure grip during press checks.

SUPERB TRIGGER PULL IN BOTH MODES

Simplified construction of the Omega's trigger mechanism, based on the CZ 75 system, adds the option of a user-replaceable trigger release safety, the so-called decocker. The trigger features butter smooth pull with a crisp break in both modes. The shape of the trigger blade and spacious combat trigger guard allow for comfortable shooting, even with gloves on.

THE BENCHMARK OF RELIABILITY

The CZ P-09 NOCTURNE was put through several extremely demanding tests according to NATO AC/225 D/14 to ensure reliable operation in the most challenging conditions,

such as high and low temperatures, salt water, sand, mud and dust. It passed with flying colors.

DURABILITY THAT ENSURES AN EXTENDED SERVICE LIFE

All metal components have a high-quality finish. Nitriding of the slide, barrel, container and other components ensures maximum resistance to corrosion. Durability is further ensured by a barrel manufactured with CZ's advanced cold hammer forging technology and comes with a lifetime warranty. It is not only extremely durable, but also highly accurate. The tough, fiberglass-reinforced polymer frame is extremely strong and resistant to temperature fluctuations, ensuring reliable operation in the most adverse conditions.

BOTTOM LINE

Whether you need a firearm that is shooter-friendly for recreational use, comfortable for everyday carry, or reliable and durable in the most demanding conditions, the CZ P-09 NOCTURNE handles them all. Without compromise.

NEW

CZ P-09 F NOCTURNE

The full-size version of the CZ P-09 NOCTURNE with OMEGA SA/DA trigger mechanism features advanced ergonomics and intuitive placement of controls for maximum comfort with intuitive operation. High accuracy is ensured by its full-size, cold hammer forged barrel and luminescent or tritium sights. New texturing on the grip and other strategic areas provide high traction where you need it most.

Red dot sight is not included in the package.

Red dot sight is not included in the package.

NEW

CZ P-09 C NOCTURNE

The reduced, compact dimensions of the CZ P-09 C NOCTURNE make it the perfect choice for concealed carry. Although smaller than the full-size version, it retains the same cutting-edge features, intuitive operation and extreme shooting comfort.

Red dot sight is not included in the package.

NEW

CZ P-09 C NOCTURNE SR

Concealed carry with a whisper is a fitting description for the CZ P-09 C NOCTURNE SR (Suppressor-Ready). Its reduced dimensions are complimented by a 1/2" x 28 UNEF-3A threaded barrel for fast and convenient mounting of a suppressor.

Red dot sight is not included in the package.

CRAFTED IN MESA,
ARIZONA, THE
CZ CUSTOM SHOP
TAKES CZ 75 SERIES
OF PISTOLS TO THE
NEXT LEVEL.

The CZ Custom A01 Series feature innovative designs and tighter tolerances, making them the absolute top tier of metal firearm excellence. The series is known for its heavyweight, checkered hammer-forged frames, 5-inch slide, bull barrels, and custom trigger work by CZ Custom.

CZC A01-SD
OPTICS-READY

The A01-SD is a hammer-forged, CNC-machined, and blued-frame pistol with a short dust cover for quick transitions. It features a pinned hammer and sear, a CZ 85 Combat trigger, and a 25 LPI checkered grip with an internal magwell. The slide has serrations, fiber optic sights, and is optics-ready. The match-grade bull barrel measures 4.925 inches and is made of 416 stainless steel. It utilizes P-09 magazines with a 19-round capacity.

CZC A01-LD

From CZ Custom, the A01, a Shadow series evolution, showcases a meticulously-forged and CNC-machined blued frame. With features like a deep beavertail, undercut trigger guard, 25 LPI checkering, and an internal magwell, it blends classic CZ 75 ergonomics with competition-ready design.

CENTERFIRE RIFLES

CZ rifles for hunting and sport are traditionally among the best long guns available on the world market. As with all our products, the CZ brand is synonymous with ingenious design, reliability, accuracy and first-rate quality at an affordable price. The unique, highly modular design of the CZ 600 series comes with a number of patented features that improve all key characteristics – from reliability and durability to ergonomics and shooting comfort to safety and accuracy.

THE CZ 600 SERIES FEATURES A PATENT PROTECTED BOLT DESIGN THAT ENSURES 100% USER-CONTROLLED FEED IN ALL SHOOTING POSITIONS, AND EVEN UNDER THE MOST DEMANDING CONDITIONS

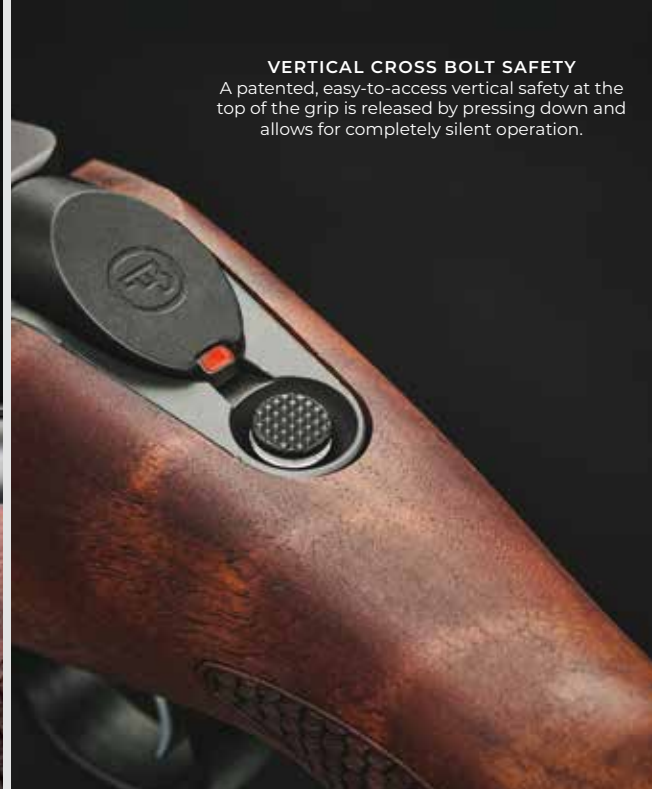

Other benefits include a patented, ergonomically designed vertical safety with completely silent operation, an exceptional magazine that users can select to function as detachable or locked, an extremely durable finish, and easy disassembly that requires no manipulation of the trigger. Models for hunting, sport and hobby are available in a continuously updated range of popular calibers.

**MAIN
FEATURES
OF THE
CZ 600
SERIES**

CONTROLLED FEEDING WITH SHORT EJECTOR
The CZ 600 series combines the best qualities of controlled feed and push feed systems. This simple and reliable patented design delivers 100% user- controlled feed in all shooting positions, and even under the most demanding conditions.

VERTICAL CROSS BOLT SAFETY
A patented, easy-to-access vertical safety at the top of the grip is released by pressing down and allows for completely silent operation.

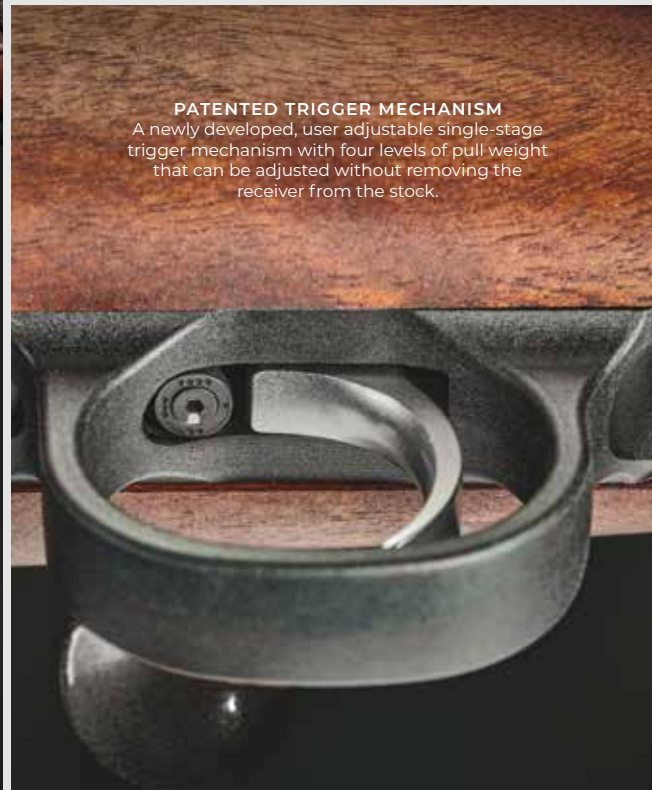

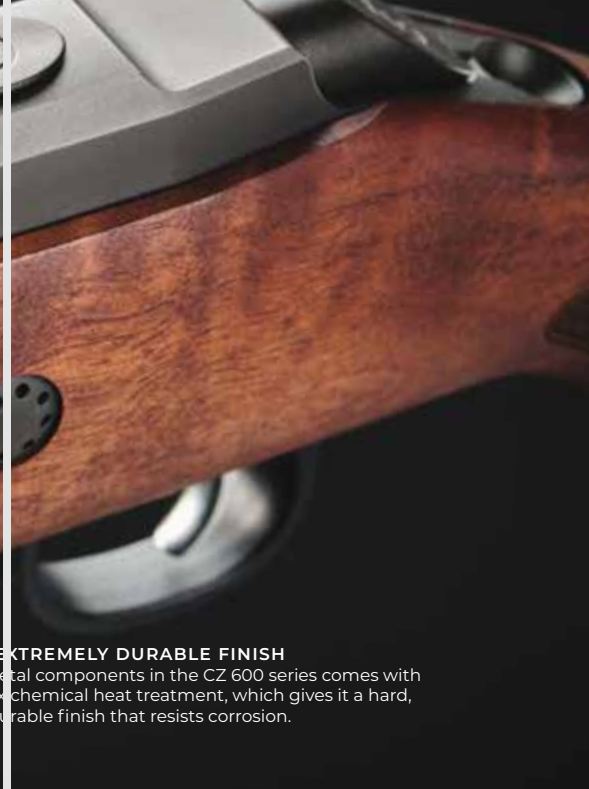

LOCKABLE MAGAZINE
A detachable, double-stack magazine with a "push n' click" loading operation contributes to an exceptionally smooth and reliable feeding of rounds. The magazine is easily locked by sliding the magazine release forward. When the magazine lock is activated, the firearm changes to a fixed magazine configuration.

SAFE DISASSEMBLY
A spring-loaded button on the right side of the receiver allows for easy removal of the bolt without manipulating the trigger.

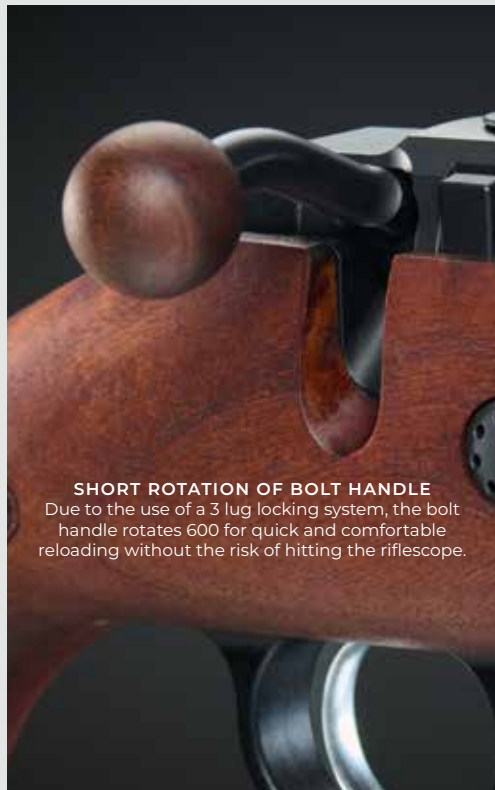

EXTREMELY DURABLE FINISH
The surface of metal components in the CZ 600 series comes with CZ's new BobOx chemical heat treatment, which gives it a hard, durable finish that resists corrosion.

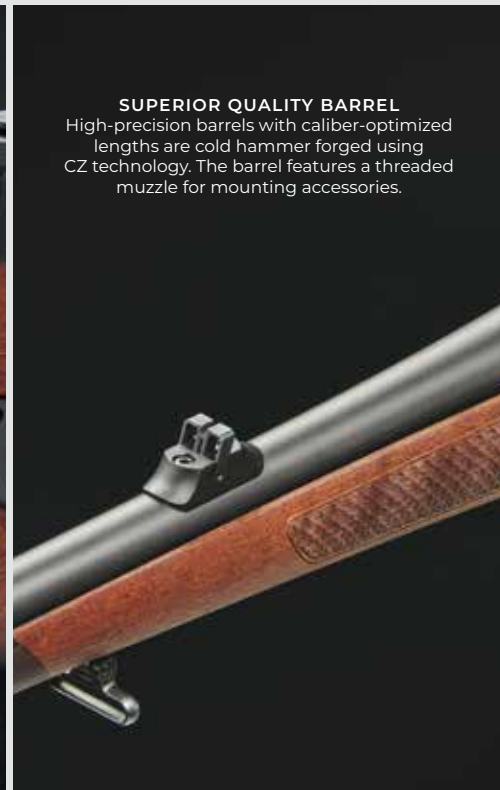

PATENTED TRIGGER MECHANISM
A newly developed, user adjustable single-stage trigger mechanism with four levels of pull weight that can be adjusted without removing the receiver from the stock.

EXTREME ACCURACY
The ALPHA, LUX and ERGO models are guaranteed to shoot sub-MOA at 100 m for 3 shot groups, and the RANGE model shoots sub-0.75 MOA for 5 shot groups. The compact TRAIL version is guaranteed to shoot 2 MOA. All models are tested using match-grade factory ammunition.

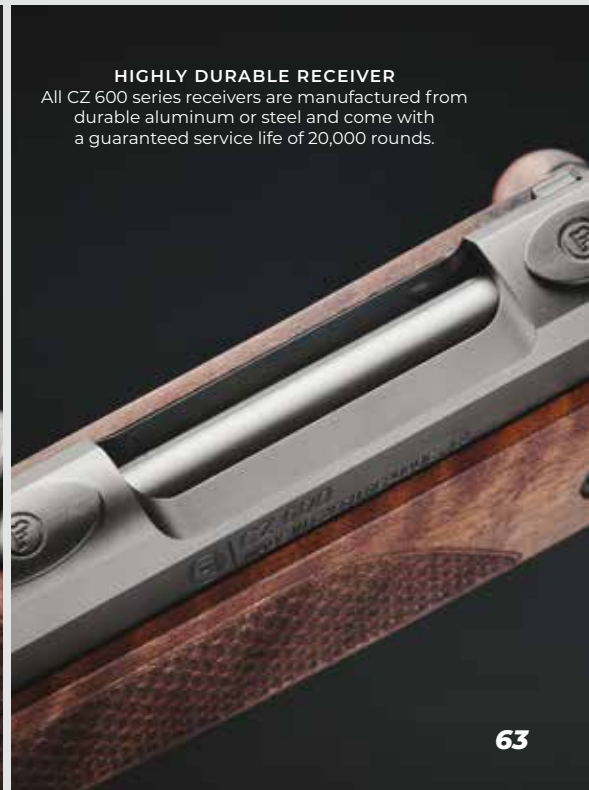

SHORT ROTATION OF BOLT HANDLE
Due to the use of a 3 lug locking system, the bolt handle rotates 600 for quick and comfortable reloading without the risk of hitting the riflescope.

SUPERIOR QUALITY BARREL
High-precision barrels with caliber-optimized lengths are cold hammer forged using CZ technology. The barrel features a threaded muzzle for mounting accessories.

STANDARDIZED MOUNTING INTERFACE
CZ 600 series receivers are equipped with an integrated Weaver rail (aluminum) or Remington 700 type mounting interface (steel).

HIGHLY DURABLE RECEIVER
All CZ 600 series receivers are manufactured from durable aluminum or steel and come with a guaranteed service life of 20,000 rounds.

NEW

CZ 600

AMERICAN

The CZ 600 AMERICAN is an American-style bolt-action centerfire rifle that is equipped with a beautifully crafted Turkish walnut stock with a fleur-de-lis pattern on the grip. Thanks to its straight comb design, the stock allows for comfortable shooting with a riflescope. The steel receiver features a Remington 700-style attachment interface, ensuring compatibility with wide variety of scope rings. Available in a wide range of calibers, from 223 Rem. to 300 Win. Mag., it is ready to meet the needs of a wide range of hunters and sport shooters.

A MODERN
CENTERFIRE RIFLE
WITH A TRADITIONAL
EUROPEAN DESIGN

CZ 600 ALPHA

The CZ 600 ALPHA comes with a fiber-reinforced polymer stock and semi-heavy barrel. Optics can be mounted on the Picatinny rail integrated on the durable aluminum receiver. Easy maintenance makes this model particularly well suited for those who use their rifle on a daily basis and deeply value durability and reliability, regardless of inclement weather.

DURABLE
RIFLE
FOR EVERYDAY
USE

CZ 600 RANGE

The CZ 600 RANGE is a versatile target and hunting rifle for highly precise shooting at medium to long distances. It comes with a guaranteed, factory-tested accuracy of sub-0.75 MOA at 100 meters (five-shot groups when using match-grade factory ammunition). The stock is optimized for accuracy and features a tool-free, height adjustable comb. This model comes with a nitrided steel receiver with a mounting interface for a Remington 700 type riflescope.

RIMFIRE RIFLES

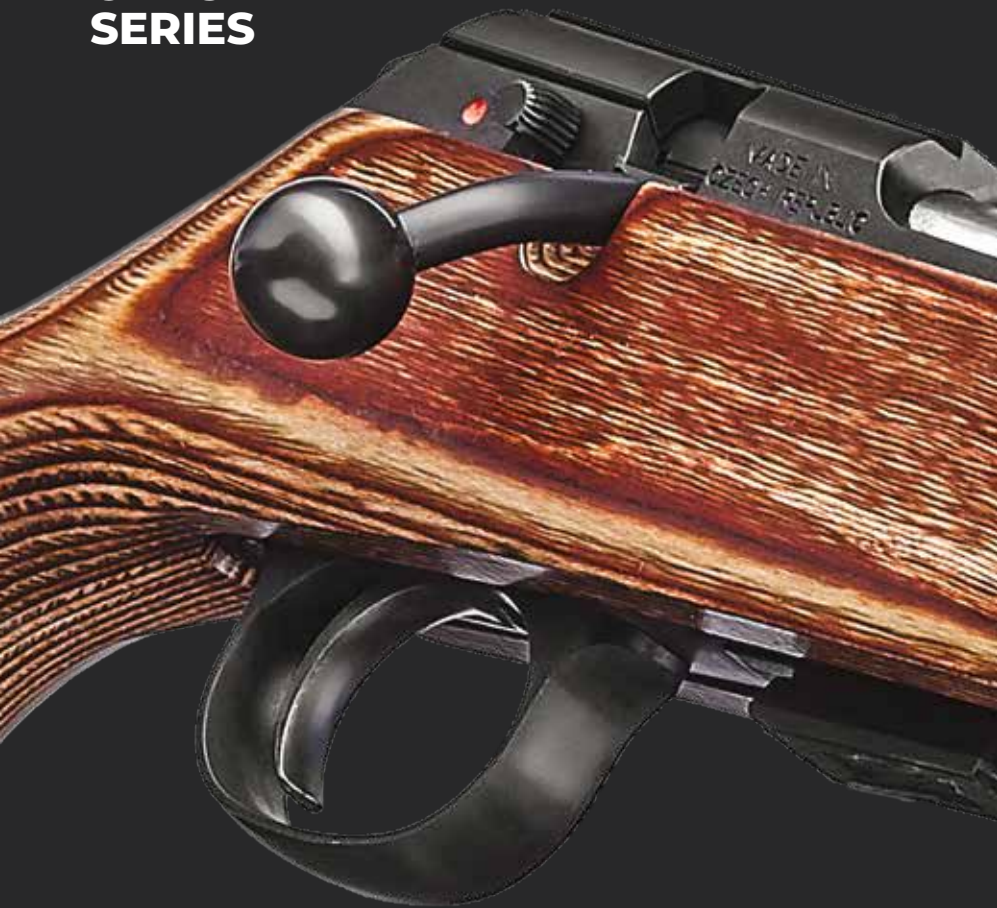

Rimfire rifles provide a gateway to the fascinating world of guns and shooting as well as an effective hunting tool and target shooter. For more than 70 years, millions of satisfied customers and fans around the world have considered it a global standard in this segment. CZ is proud of this legacy and to continue to offer its current range the CZ 457 bolt-action rifle series, which brings many outstanding features to the table.

CZ 457 SERIES A NEW GENERATION OF MODERN RIMFIRE RIFLES

The CZ 457 series offers exceptional performance due to their fast and reliable operation. For maximum safety, they come with a push-to-fire safety on the right side of the receiver, striker status indicator and a separate bolt extractor control. Shooting accuracy is ensured with its adjustable trigger mechanism that features hammer forged barrel, low trigger pull weight and excellent travel, combined with a noticeably lighter striker and a new type of bedding. Other benefits include an extremely durable anti-corrosion finish on metal parts, easy change of caliber by users and reliable polymer magazines that are compatible with the previous generation of CZ rimfire rifles.

MAIN FEATURES OF THE CZ 457 SERIES

Adjustable trigger mechanism for setting pull weight and trigger travel.

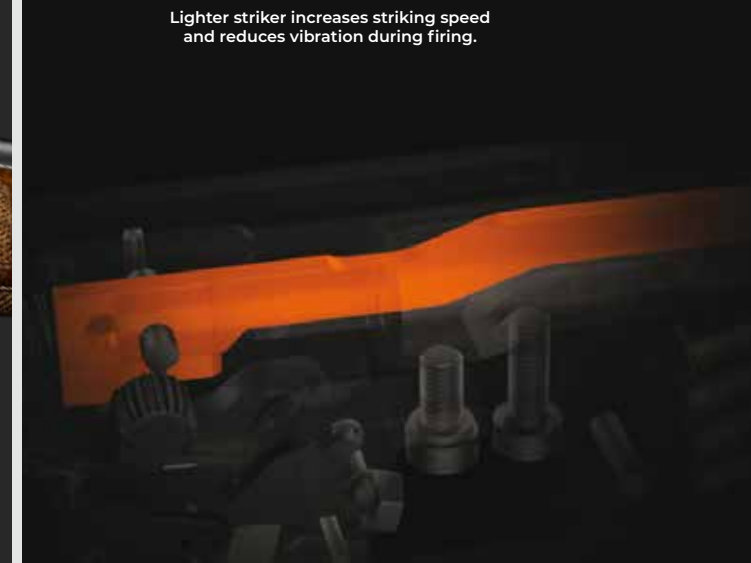

Cocked striker indicator.

Top quality cold hammer forged barrels and easy replacement of barrel with an option to change the caliber.

New ergonomic stocks.

Lighter striker increases striking speed and reduces vibration during firing.

New type of bedding constantly tightens screws in stock for high accuracy and extreme barrel stability.

Open and remove bolt even with safety engaged.

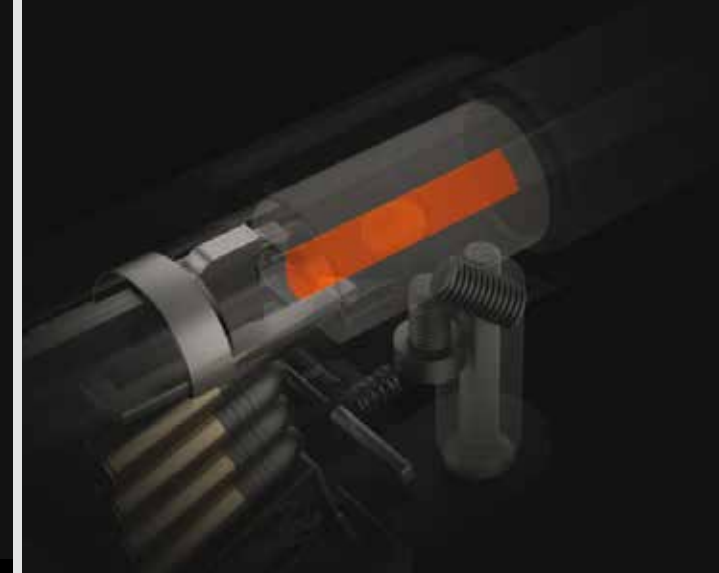

Intuitive push-to-fire safety.

Push button bolt removal.

60 degree bolt throw handle for quick and convenient reloading, even with a mounted riflescope.

Match chamber (selected 22 LR caliber models).

CZ 457 VARMINT SYNTHETIC

A model created at the request of our customers. It's an ideal choice for accurate sport shooting and hunting at medium to longer distances, due to its heavy barrel and polymer stock with increased resistance to adverse weather conditions.

This model is also available as a left-handed version.

CZ 457 VARMINT

A popular design with an American-style varnished stock and heavy 525 mm barrel, which makes it ideal for accurate sport shooting and hunting at medium to long distances. The proven 11 mm CZ dovetail is milled into the top of the receiver for attaching riflescope ringmounts.

CZ 457 MTR

A highly precise model with an extraordinarily comfortable stock made from premium walnut. The heavy, cold hammer forged match-grade barrel in 22 LR caliber is equipped with a MATCH chamber. Thanks to this feature, together with other innovations in the CZ 457 series, the CZ 457 MTR guarantees 15 mm groups at a distance of 50 m.

CZ 457 AMERICAN

A beautiful, modern example of a classic American sport shooting and hunting rimfire rifle. The varnished American-style stock is made from high quality walnut, with checkering on the grip that incorporates a fleur-de-lis motif. The light profile, cold hammer forged barrel is 630 mm long and has no sights.

This model is also available as a left-handed version.

CZ 457 AMERICAN STAINLESS SYNTHETIC

457 American features a rugged synthetic stock and provides durability with nitride finished receiver, stainless steel barrel and optimal features for suppressor use. With 1/2×28 threads, precise chamber tolerances, and cutting-edge design elements, it ensures lasting performance and adaptability for future generations.

CZ 457 CHASSIS

The 457 Chassis, tailored for rimfire competition, boasts an upgraded chassis for cost-effective training. With a 5+1 magazine capacity and a detachable magazine, it offers versatility in handling. The MDT ACC Premier Chassis allows for two-position, push-to-fire safety, ensuring a secure shooting experience. This exclusive rifle, limited to 500 units for 2024, features a 24-inch barrel for optimal balance during practice sessions.

CZ 457 MANNERS

The 457 Manners MTR boasts a Manners Composite adjustable stock paired with a high-performing 16.2" barrel, offering a cost-effective solution for rimfire competition training with 22 LR ammunition. The stock's advanced construction, incorporating layers of carbon fiber and fiberglass, achieves an optimal resin-to-fabric ratio, ensuring superior performance. Alongside our most accurate 22 LR chamber, this rifle guarantees unparalleled precision and reliability with every shot.

CZ 457 LUX

An accurate, safe, reliable and modern rimfire rifle with a classic European centerfire hunting rifle design. The varnished stock with cheekpiece is made of high-quality Turkish walnut and features laser-etched checkering on the grip. Traditional iron sights come as standard.

CZ 457 SCOUT

The 457 Scout boasts a compact 12” length of pull and facilitates an easy grasp for beginners. Equipped with a straightforward leaf rear sight and blade front – with rear adjustability for windage and front for elevation – mastering the fundamentals of sight picture has never been more accessible. Additionally, the 11mm dovetails on the receiver streamline the process of adding a scope, ensuring a seamless experience for those new to shooting.

CZ 457 ROYAL

The 457 Royal rifle showcases a premium walnut stock featuring a decorative forend tip designed for scoped shooting. It presents a high, flat American-style comb and omits traditional sights. The 16.5” barrel is threaded to the European standard of 1/2x20, adding to its appealing aesthetics.

SHOTGUNS CZ-USA FIELD SPORTS

This diverse range of shotguns exhibits excellent construction quality, reliability and user-friendliness. The traditional core offer is a proven range of semi-automatic and pump action shotgun models for hunting and sport shooting, for which a wide selection of interchangeable chokes is available. There's something for everyone on the following pages.

CZ 712 G3

The CZ 712 G3 proves its versatility by effortlessly handling both light and heavy loads. Whether you're navigating the clay target course or venturing into the field, this shotgun excels in any scenario. The gas-operated mechanism not only softens recoil but also cycles 2 ¾- and 3-inch shotshells, ensuring optimal performance in every shot.

CZ 720 G3

The 720 G3 effortlessly handles clays and game birds, outperforming similar autoloaders that are twice its cost. With a classic look and high-performance features, including a soft gas-operated system, two quick-change pistons for light or heavy loads, an 8mm ventilated rib, the option for a magazine tube extension, and 5 CZ Active Extended Chokes (F, IM, M, IC, C), it's a versatile choice for both light targets and heavy game loads.

CZ 1012 G2 SYNTHETIC

Designed for use in less than ideal environments, the 1012 Synthetic is built with the same exceptionally reliable inertia semi-auto system that set a clay shooting World Record in 2019, this auto-loader is crafted to endure tough conditions. Whether on a duck boat or enduring a grueling 12-hour torture test, the 1012 is meticulously designed to handle a diverse range of ammunition with minimal maintenance requirements.

CZ 1012 G2 SERIES EXEMPLIFY PERFORMANCE THROUGH INNOVATION

The 1012 employs a gas-less inertia operating system. Unlike gas-operated guns, it uses a spring within the bolt to store recoil energy, rotating and unlocking twin lugs to eject spent shells. Notably, the inertia system requires less maintenance, with testing showing reliability even after 5,000 rounds without cleaning or oiling. In regular use, occasional cleaning and oiling suffice. Moreover, the gas-less system is tuned for versatility, accommodating a range of shells from light-target loads to powerful 3" magnums.

KEY FEATURES

- Inertia Operating Bolt System
- Reversible Cross-Bolt Safety For Right Or Left Handed Shooters
- Drilled & Tapped Receivers (Only on turkey models)
- Bead Front Sight
- Accommodates The Addition Of A Magazine Tube Extension
- Oversized Controls for Use in Adverse Conditions
- Comes With 5 CZ Active Extended Chokes (F, IM, M, IC, C)
- Rubber Butt Pad
- Packed In A Lockable Hard Gun Case
- Weight - 6.5 lbs

CZ 1012 G2

The 1012 G2 semi-auto shotgun features an advanced inertia-operated bolt system for optimal performance. In a recent enhancement, the G2 now allows users to add a magazine extension tube to the shotgun, offering increased capacity and versatility. Designed for versatility, it includes a reversible cross-bolt safety for both right and left-handed shooters. With a bead front sight for precision and 5 CZ active extended chokes (F, IM, M, IC, C) included, this shotgun combines cutting-edge features and adaptability at an affordable price point. Elevate your shooting experience with the enhanced versatility of the 1012 G2.

CZ **BOBWHITE G2**

The improved Bobwhite G2 is a double-trigger gun with an English-style grip. Featuring a single-piece CNCed receiver, upgraded internals, and a robust finish, all at an unbeatable price. It sets a new standard for durability and performance.

SIDE-BY-SIDE

CZ *HAMMER*

The CZ Hammer Series features elegant walnut stocks, intricate engraving, and box-lock actions, serving its purpose in functionality. Paying homage to the traditional hammer gun style, these shotguns offer an authentic shooting experience with modern craftsmanship. Designed for durability and reliability, they are perfect for daily use in any weather.

CZ *SHARP-TAIL*

The Sharp-Tail stands out among side-by-sides with its stylish single selectable trigger and pistol grip. The updated CNCed receiver features floating firing pins, coil spring-operated hammers, and redesigned sears for increased longevity and consistency. It also has a color case-hardened receiver.

CZ *DRAKE*

The Drake is built on a one-piece CNCed receiver and features a single selectable trigger, allowing shooters to choose between firing the top or bottom barrel first. It has a simple extractor for spent shells and sheds some weight with a mid-rib delete.

CZ *QUAIL*

The Quail, available in 20-gauge with 28" barrels, stands out with its 13 3/4 length of pull, offering enhanced comfort for youth shooters and hunters. The removal of the mid-rib reduces weight at the muzzle end, making it easy to shoulder and swing. This particular gun has a single extractor that lifts spent shells from the chambers, and it comes with five interchangeable choke tubes.

CZ *WINGSHOOTER ELITE*

The Wingshooter Elite is an elegant shotgun with faux side plates, intricate engravings, laser-cut checkering, and a two-tone finish. A standout choice for ardent shooters, it sports premium features like a CNCed receiver, single trigger, solid mid-ribs, ejectors, pistol-grip stock, and white bead sight.

CZ REAPER MAGNUM

The Reaper Magnum shotgun is an excellent choice for ardent waterfowl and turkey hunters. It features a Picatinny rail for optics, five external chokes, and is chambers in 12-gauge. With a simple barrel selector switch, hunters can easily switch between short-range and long-range constriction, providing versatility for different hunting situations.

CZ SWAMP MAGNUM

The Swamp Magnum over/under has an automatic safety for added security in the duck blind. With a resilient polymer stock, it outperforms wood in waterfowling's tough conditions. This 3 1/2" chambered 12 gauge, featuring 30" barrels, excels at bringing down big birds.

CZ 612 FIELD

The CZ 612 series presents adaptable and trustworthy pump-action shotguns crafted for hunting and sport shooting. Renowned for their robust build and consistent performance, they offer diverse configurations catering to varied shooter preferences and requirements.

CZ 620/628 FIELD SELECT

Introducing the 620 Field Select 20-gauge shotgun—a stylish and portable choice for bird hunting. With a Turkish Walnut stock, glossy blue finish, and gauge-specific 7075 aluminum action, it weighs just 5.4 lbs. Features include interchangeable chokes, a full forend, and a pistol grip for optimal performance. Crafted for both style and functionality, it's the ideal companion for enthusiasts who value precision in bird hunting with 2 3/4" shells also available in 28ga as the 628.

CZ ALL-TERRAIN
SERIES BUILT
TO EXCEL IN
ANY CONDITION

The All-Terrain series includes a couple key features that set it apart from the rest of our shotguns. All come clad in OD Green Cerakote sporting hardy Turkish Walnut Furniture, factory installed sling studs and break action models include magnetic chambers-allowing you to open the gun and not have the shells fall out, perfect for the duck blind or upland field.

CZ *ALL-AMERICAN*

The CZ All-American Family Series offers meticulously crafted shotguns for competitive clay target shooters. With top-tier craftsmanship and materials, these shotguns provide versatile options, including adjustable comb stocks and ported barrels for personalized preferences. Emphasizing durability and precision, the series is designed for ease of maintenance, making it ideal for regular use in challenging weather conditions.

CZ *REDHEAD PREMIER TARGET*

The Redhead Premier Target is assembled like the standard Redhead Premier but with a different purpose in mind — it's designed to crush clay targets, plain and simple! It comes fitted with a special Monte Carlo stock that keeps the gun on your shoulder while keeping your head up to see the clays. Add to that a healthy right-hand palm swell, 30" barrels and a stepped rib designed for rising trap targets — it's the perfect choice for those wanting to own a true target gun at an affordable price. Shipped with a set of black extended and knurled choke tubes, the Redhead Target has laser-cut checkering and a 1-piece CNCed receiver. This target gun can be had in a 12 gauge.

CZ *612 TARGET*

One classy pump gun, the 612 Target is fitted with Select grade wood in a glossy oil finish while the metalwork gets a deep polished blue. With a factory-tuned trigger system, raised rib and comfortable Monte Carlo stock, it's ready to kill some clays. An assortment of stock shims help users adjust drop and cast to achieve a better fit, while a set of three extended chokes and a pair of white beads round out the package.

CZ SCORPION 3+ 7" PISTOL

The Scorpion 3+ Pistol features improved ergonomics, seamless operation, and advanced materials for enhanced rigidity while reducing weight. This redesigned 9mm pistol offers a balance between compact size and superior ballistic performance with 4.2" and 7.8-inch barrel models.

CZ SCORPION 3+ CARBINE MAGPUL EDITION **NEW**

A man with a beard and mustache, wearing a black tactical cap with a CZ logo, safety glasses, and a black t-shirt, is holding a CZ Bren 2 Ms semi-automatic rifle. He is looking directly at the camera with a serious expression. The background is dark and filled with soundproofing panels. The lighting is dramatic, highlighting the man's face and the rifle. The overall tone is professional and tactical.

CUTTING-EDGE SEMI-AUTOMATIC RIFLES WITH IMPRESSIVE PARAMETERS

The CZ BREN 2 Ms semi-automatic platform is one of the most sophisticated on the global market. Its advantages include a simple design, extreme reliability, superior accuracy, reduced weight and excellent ergonomics, as well as ambidextrous and easy to swap controls.

CZ BREN 2 Ms
SERIES

CZ *BREN 2 Ms*

The Bren 2 Ms Pistol offers various barrel lengths and chamberings. This clean-sheet design boasts a lighter construction with an aluminum receiver and a carbon fiber reinforced polymer lower. Key features include a non-reciprocating charging handle and ambidextrous controls, providing versatility with swappable barrel lengths and chamberings. This firearm is designed for those who prioritize adaptability and precision.
